POLICY STATEMENT

INTRODUCTION

- x We recognize that human activity, including our manufacturing operations, may have potential to contribute to climate change. As a signatory to the UN Global Compact, and as part of our commitment to help achieve the Sustainable Development Goals, we make every effort to continually reduce our greenhouse gas emissions while working to ensure access to high quality and affordable medicine. Viatris is committed to doing its part to help address climate change through advanced technologies and continuous work for improvements in our operations and through partnerships and multi-stakeholder engagement.
- x Viatris is committed to providing transparent information on our efforts to mitigate the impact on and from climate change, including our greenhouse gas emissions and energy management programs and performance, and we report regularly on our efforts and progress toward our goals. We measure and report on our environmental impact through our website, in our annual Global Sustainability Report and to the CDP Climate Program, and to other interested parties, when mutually valuable. We also ensure the accuracy of the data and information through third-party data assurance of our greenhouse gas inventory.

Continually Work to Reduce Greenhouse Gas Emissions

- x We strive to continually reduce greenhouse gas emissions across our operations. We
