

## Does Viatris have an access strategy?

Access is fundamental to our mission. It is not an initiative; it is our business model. Our business and operating model is deliberately designed and implemented to deliver on our strategy to build and sustain access to medicine at scale. Underpinned by Viatris' relevance and success in meeting evolving healthcare needs, we seek to create value for and together with our key stakeholders – the people who trust our medicines every day, the health systems who rely on us, the people who make up Viatris, our partners and the investors who believe in our ability to execute on our ambitious mission.

We are convinced that patients and systems around the world are best served by a healthcare company applying a well-rounded and long-term approach, maintaining viability while working to manage inherent risks and opportunities and continuously striving to advance sustainable operations and responsible practices in a focused way.

Access to medicine begins with sustainably delivering high-quality medicines and health solutions at a scale to people, regardless of geography or circumstance. Viatris was formed to bridge the traditional divide between generics and brands, combining the best of both, to address healthcare needs more holistically globally. With an extensive portfolio of medicines to meet nearly every health need, a one-of-a-kind global supply chain designed to reach more people with health solutions when and where they need them, and the scientific expertise to address some of the world's most enduring health challenges, access is central to everything we do.

We are focused on meeting individual needs, whether with a generic medicine, an improved version of an existing medicine, or a truly novel therapeutic solution. We go beyond developing, making and distributing high-quality medicines and work to help find solutions that support
